How to Use These Hooks

The Viral Reel Formula

Creating a high-performing reel is simple when you follow this structure:

Hook + Value + CTA

This formula helps you **grab attention, deliver useful content, and drive engagement.**

1. Hook (First 3 Seconds)

The hook is the **most important part of your reel.**

It should instantly grab attention and make people stop scrolling.

Use one of the hooks from this guide as the **first line of your reel.**

Example Hook

“Stop posting reels like this...”

This creates curiosity and makes viewers want to know what mistake they might be making.

2. Value (Main Content)

After the hook, deliver the **main information or lesson**.

This is where you explain the idea, tip, or strategy related to your hook.

Keep the content:

- Clear
- Simple
- Valuable

Example Content

“Most creators start their reels with slow introductions.
Instead, start with a strong hook in the first 3 seconds to grab attention.”

3. CTA (Call To Action)

End your reel by telling viewers **what to do next**.

A strong CTA helps increase:

- Followers
- Saves
- Shares
- Engagement

Example CTA

“Follow for more Instagram growth tips.”

Other CTA examples:

- Save this reel for later
- Share this with a creator
- Comment if this helped you
- Follow for more content ideas

Example Reel Structure

Hook

“Stop posting reels like this...”

Value

Explain the mistake creators make and how to fix it.

CTA

“Follow for more Instagram growth tips.”
